

HOME EQUITY LINE OF CREDIT APPLICATION DISCLOSURE

BUSEY BANK, AN ILLINOIS BANKING CORPORATION
CHAMPAIGN 909 W KIRBY
909 W KIRBY AVE
CHAMPAIGN, IL 61821

IMPORTANT TERMS OF OUR HOME EQUITY LINE OF CREDIT

This disclosure contains important information about our home equity line of credit. You should read it carefully and keep copy for your records.

Availability of Terms: All of the terms described below are subject to change.

If these terms change (other than the annual percentage rate) and you decide not to enter into an agreement with us, you are entitled to a refund of any fees you paid to us or anyone else in connection with your application.

Security Interest: We will take a mortgage on your home. You could lose your home if you do not meet the obligations in your agreement with us.

Possible Actions: We can terminate your line and require you to pay us the entire outstanding balance in one payment if:

- You engage in fraud or material misrepresentation in connection with the line.
- You do not meet the repayment terms.
- Your action or inaction adversely affects the collateral or our rights in the collateral.

We can refuse to make additional extensions of credit or reduce your credit limit, if:

- The value of the dwelling securing the line declines significantly below its appraised value for purposes of the line.
- We reasonably believe you will not be able to meet the repayment requirements due to a material change in your financial circumstances.
- You are in default of a material obligation in the agreement.
- Government action prevents us from imposing the annual percentage rate provided for or impairs the priority of our security interest such that the value of the interest is less than 120 percent of the credit line.
- The maximum annual percentage rate is reached.
- The initial Agreement permits us to make changes to the terms of the Agreement at specified times or upon the occurrence specified events.

- A regulatory agency has notified us that continued advances would constitute an unsafe and unsound practice.
- The maximum annual percentage rate under the Plan is reached.

Conversion Option: The Plan contains an option to convert the annual percentage rate under the Plan from a variable rate with annual percentage rate limits to a fixed rate as determined below. The following information is representative of conversion option features recently offered by us: At your discretion, during the Draw Period you may opt to convert a portion of your outstanding Home Equity Line of Credit Account balance, but not less than \$2,500, to a fixed-rate loan (Fixed Rate-Conversion Loan). The maximum number of times you can convert a portion of your outstanding Home Equity Line of Credit balance is 5. Fixed-Rate Conversion Loans may be set up to 36 months or 60 months. However, no Fixed-Rate Conversion Loan may bear a maturity date that extends beyond the Draw Period or Maturity Date established by your Home Equity Line of Credit Agreement.

Minimum Payment Example: If you had an outstanding balance of \$10,000 and you opted to convert to the fixed rate for 60 months, the minimum payment at the maximum ANNUAL PERCENTAGE RATE OF 7.610% would be \$200.90

ANNUAL PERCENTAGE RATE Increase. Your ANNUAL PERCENTAGE RATE may increase if you exercise this option to convert to a fixed rate.

Conversion Periods. You can exercise the option to convert to a fixed rate only during the following period or periods: During the Draw Period.

Conversion Fees. You will be required to pay the following fees at the time of conversion to a fixed rate: First Fixed-Rate Conversion Loan will not be assessed a fee. Subsequent Fixed-Rate Conversion Loans will be assessed a processing fee of \$50.00

Rate Determination: The fixed rate will be determined as follows: The fixed rate for each portion of your credit line balance converted to a fixed rate conversion loan will accrue at your current interest rate at the time of the conversion plus a margin acceptable to us in our sole discretion.

Conversion Rules: You can convert a fixed rate only during the periods or periods described above. In addition, the following rules apply to the conversion option for the Plan: At the inception of each Fixed Rate Conversion Loan, Lender will determine the payment amount required to satisfy the balance of the loan in equal payments over the term of the loan for the fixed rate period. Your Minimum Monthly Payment will be the sum of the fixed payment amounts for all Fixed Rate Conversion Loans, plus the minimum payment amount for the remaining balance owed under the Home Equity Line of Credit Agreement. Any payments made toward the outstanding principal balance of your Fixed Rate Conversion Loans will be available for you to access under your Home Equity Line of Credit Account once those payments have been posted.

In the event a Fixed Conversion Loan becomes greater than 45 days past due, the Lender can initiate a transfer of funds from the borrower's Home Equity Line of Credit Account to the Fixed Rate Conversion Loan to satisfy the obligation, at its discretion. The amount transferred shall be no greater than the outstanding principal balance plus accrued interest on the Fixed Rate Conversion Loan and is subject to availability. In the event the amount available on the Home Equity Line of Credit Account is insufficient to cover all principal; and interest accrued, the Lender may transfer funds to satisfy the outstanding obligation as such funds become available through principal; reduction on the Home Equity Line of Credit Account.

Minimum Payment Requirements: You can obtain advances of credit (the "draw period") for 120 months. During the draw period, payments will be due monthly. Your regular payment will equal the finance charges that have accrued on the outstanding balance. You will make 120 monthly payments. The minimum payment during the draw period will be the regular payment plus any amount past due and all other charges. This payment will not reduce the principal that is outstanding on your line.

After the draw period ends, you will no longer be able to obtain credit advances and must repay the outstanding balance over a specified period of months (the "repayment period"). During the repayment period of 120 months, payments will be due monthly. Your minimum monthly payment will equal 1/(120)th of the principal balance that was outstanding at the end of the draw period plus accrued finance charge, any amount past due and all other charges that have accrued on the outstanding balance during the billing cycle.

Minimum Payment Example: If you made only the minimum payment and took no other credit advances, it would take 20 years to pay off a credit advance of \$10,000 at an ANNUAL PERCENTAGE RATE of 6.00%. During that period, you would make 120 monthly payments ranging from \$46.03 to \$50.96. Then you would make 120 monthly payments ranging from \$110.35 to \$111.04

Change in Terms: we may make changes to the terms of the Plan if you agree to the change in writing at that time, if the change will unequivocally benefit you throughout the remainder of the Plan, or if the change is insignificant (such as changes relating to our data processing systems).

Fees and Charges: In order to open and maintain an account, you must pay certain fees and charges.

Processing Fee	\$250.00	Paid by Borrower
Annual Servicing Fee	\$65.00	Paid by Borrower

Late Charge: Your payment will be late if it is not received by us within **15 days after the "Payment Due Date"** shown on your periodic statement. If your payment is late we may charge you 5.000% of the payment or \$10.00, whichever is greater.

Third Party Fees: You may also be required to pay certain fees to third parties to open or close a line. These fees generally total between \$158.50 and \$546.50. We estimate the breakdown of these as follows:

Flood Life of Loan Determination	\$5.00-11.00	Paid by Lender
Property Valuation	\$51.00-500.00	Paid by Lender
Credit Report	\$5.00-14.95	Paid by Lender
Abstract or Title Search	\$50.00-150.00	Paid by Lender
Recording Mortgage	\$30.00-80.00	Paid by Lender
Recording Mortgage Release	\$30.00-70.00	Paid by Borrower
Title Insurance Policy	\$200.00-4500.00	Paid by Lender
Closing Fee to Title Company	\$0.00-300.00	Paid by Lender
Early Account Closing Fee	\$350.00	Paid by Lender
Account Return Check Charge	\$30.00	Paid by Lender
Notary Fee	\$150-500	Paid by Lender
Tax Service:	\$72.00	Paid by Lender

Property Insurance: You must carry insurance on the property that secures the Plan.

Tax Deductibility: You should consult a tax advisor regarding the deductibility of interest and charges for the line.

Additional Home Equity Programs: Please ask us about our other available Home Equity Line of Credit plans.

Variable Rate Feature: The line has a variable rate feature, and the annual percentage rate (corresponding to the periodic rate) and the minimum monthly payment can change as a result.

The annual percentage rate includes only interest and no other costs.

The annual percentage rate is based on the value of an index. Information about the index is available in the Federal Reserve Statistical Release H-15 (www.federalreserve.gov/releases/h15). To determine the annual percentage rate that will apply to your line, we add a margin to the value of the index.

Ask us for the current index value, margins, discount and annual percentage rates. After you open a credit line, rate information will add on periodic statements that we send you.

Rate Changes: The annual percentage rate can change monthly. The maximum ANNUAL PERCENTAGE RATE that can apply is 18%. Apart from this rate "cap," there is no limit on the amount by which the rate can change during any one-year period.

Maximum Rate and Payment Examples: If the ANNUAL PERCENTAGE RATE during the draw period equaled the 18% maximum and you had an outstanding balance of \$10,000, the minimum monthly payment would be \$150.00. This maximum ANNUAL PERCENTAGE RATE could be reached during the first month of the draw period.

If you had an outstanding balance of \$10,000 at the beginning of the repayment period, the minimum monthly payment at the maximum ANNUAL PERCENTAGE RATE of 18% would be \$450. This annual percentage rate could be reached during the first month of the repayment period.

Historical Example: The following table shows how the ANNUAL PERCENTAGE RATE and the minimum monthly payments for a \$10,000 outstanding balance would have changed based on changes in the index over the past 15 years. The index values are from the first business day of January of each year. While only one payment amount per year is shown, payments during the repayment period would have varied during each year.

The table assumes an outstanding balance of \$10,000, that only the minimum payments were made, and that the rate remained constant during each year. It does not necessarily indicate how the index or your payments will change in the future.

	Year	Index (%)	Margin (%)	ANNUAL PERCENTAGE RATE (%)	Monthly Minimum Payment (\$)
	2006	7.25	1.50	8.75	74.32
	2007	8.25	1.50	9.75	82.81
	2008	7.25	1.50	8.75	74.32
	2009	3.25	1.50	4.75	40.34
	2010	3.25	1.50	4.75	40.34
	2011	3.25	1.50	4.75	40.34
	2012	3.25	1.50	4.75	40.34
	2013	3.25	1.50	4.75	40.34
	2014	3.25	1.50	4.75	40.34
	2015	3.25	1.50	4.75	40.34
Repayment Period	2016	3.50	1.50	5.00	106.07
	2017	3.75	1.50	5.25	107.18
	2018	4.50	1.50	6.00	110.22
	2019	5.50	1.50	7.00	113.88
	2020	4.75	1.50	6.25	111.48

What you should know about home equity lines of credit

Consumer Financial
Protection Bureau

January 2014

This booklet was initially prepared by the Board of Governors of the Federal Reserve System. The Consumer Financial Protection Bureau (CFPB) has made technical updates to the booklet to reflect new mortgage rules under Title XIV of the Dodd-Frank Wall Street Reform and Consumer Protection Act (Dodd-Frank Act). A larger update of this booklet is planned in the future to reflect other changes under the Dodd-Frank Act and to align with other CFPB resources and tools for consumers as part of the CFPB's broader mission to educate consumers. Consumers are encouraged to visit the CFPB's website at consumerfinance.gov/owning-a-home to access interactive tools and resources for mortgage shoppers, which are expected to be available beginning in 2014.

1. Introduction

If you are in the market for credit, a home equity plan is one of several options that might be right for you. Before making a decision, however, you should weigh carefully the costs of a home equity line against the benefits. Shop for the credit terms that best meet your borrowing needs without posing undue financial risks. And remember, failure to repay the amounts you've borrowed, plus interest, could mean the loss of your home.

1.1 Home equity plan checklist

Ask your lender to help you fill out this worksheet.

Basic features for comparison	Plan A	Plan B
Fixed annual percentage rate	%	%
Variable annual percentage rate	%	%
<input type="checkbox"/> Index used and current value	%	%
<input type="checkbox"/> Amount of margin		
<input type="checkbox"/> Frequency of rate adjustments		
<input type="checkbox"/> Amount/length of discount (if any)		
<input type="checkbox"/> Interest rate cap and floor		
Length of plan		
Draw period		

Basic features for comparison (continued)	Plan A	Plan B
Repayment period		
Initial fees		
Appraisal fee		
Application fee		
Up-front charges, including points		
Closing costs		
Repayment terms		
During the draw period		
Interest and principal payments		
Interest-only payments		
Fully amortizing payments		
When the draw period ends		
Balloon payment?		
Renewal available?		
Refinancing of balance by lender?		

2. What is a home equity line of credit?

A home equity line of credit is a form of revolving credit in which your home serves as collateral. Because a home often is a consumer's most valuable asset, many homeowners use home equity credit lines only for major items, such as education, home improvements, or medical bills, and choose not to use them for day-to-day expenses.

With a home equity line, you will be approved for a specific amount of credit. Many lenders set the credit limit on a home equity line by taking a percentage (say, 75 percent) of the home's appraised value and subtracting from that the balance owed on the existing mortgage. For example:

Appraised value of home	\$100,000
Percentage	x 75%
Percentage of appraised value	= \$75,000
Less balance owed on mortgage	– \$40,000
Potential line of credit	\$35,000

In determining your actual credit limit, the lender will also consider your ability to repay the loan (principal and interest) by looking at your income, debts, and other financial obligations as well as your credit history.

Many home equity plans set a fixed period during which you can borrow money, such as 10 years. At the end of this “draw period,” you may be allowed to renew the credit line. If your plan

does not allow renewals, you will not be able to borrow additional money once the period has ended. Some plans may call for payment in full of any outstanding balance at the end of the period. Others may allow repayment over a fixed period (the “repayment period”), for example, 10 years.

Once approved for a home equity line of credit, you will most likely be able to borrow up to your credit limit whenever you want. Typically, you will use special checks to draw on your line. Under some plans, borrowers can use a credit card or other means to draw on the line.

There may be other limitations on how you use the line. Some plans may require you to borrow a minimum amount each time you draw on the line (for example, \$300) or keep a minimum amount outstanding. Some plans may also require that you take an initial advance when the line is set up.

2.1 What should you look for when shopping for a plan?

If you decide to apply for a home equity line of credit, look for the plan that best meets your particular needs. Read the credit agreement carefully, and examine the terms and conditions of various plans, including the annual percentage rate (APR) and the costs of establishing the plan. Remember, though, that the APR for a home equity line is based on the interest rate alone and will not reflect closing costs and other fees and charges, so you’ll need to compare these costs, as well as the APRs, among lenders.

2.1.1 Variable interest rates

Home equity lines of credit typically involve variable rather than fixed interest rates. The variable rate must be based on a publicly available index (such as the prime rate published in some major daily newspapers or a U.S. Treasury bill rate). In such cases, the interest rate you pay for the line of credit will change, mirroring changes in the value of the index. Most lenders cite the interest rate you will pay as the value of the index at a particular time, plus a “margin,” such as 2 percentage points. Because the cost of borrowing is tied directly to the value of the index, it is important to find out which index is used, how often the value of the index changes, and how high it has risen in the past. It is also important to note the amount of the margin.

Lenders sometimes offer a temporarily discounted interest rate for home equity lines—an “introductory” rate that is unusually low for a short period, such as six months.

Variable-rate plans secured by a dwelling must, by law, have a ceiling (or cap) on how much your interest rate may increase over the life of the plan. Some variable-rate plans limit how much your payment may increase and how low your interest rate may fall if the index drops.

Some lenders allow you to convert from a variable interest rate to a fixed rate during the life of the plan, or let you convert all or a portion of your line to a fixed-term installment loan.

2.2 Costs of establishing and maintaining a home equity line

Many of the costs of setting up a home equity line of credit are similar to those you pay when you get a mortgage. For example:

- A fee for a property appraisal to estimate the value of your home;
- An application fee, which may not be refunded if you are turned down for credit;
- Up-front charges, such as one or more “points” (one point equals 1 percent of the credit limit); and
- Closing costs, including fees for attorneys, title search, mortgage preparation and filing, property and title insurance, and taxes.

In addition, you may be subject to certain fees during the plan period, such as annual membership or maintenance fees and a transaction fee every time you draw on the credit line.

You could find yourself paying hundreds of dollars to establish the plan. And if you were to draw only a small amount against your credit line, those initial charges would substantially increase the cost of the funds borrowed. On the other hand, because the lender’s risk is lower than for other forms of credit, as your home serves as collateral, annual percentage rates for home equity lines are generally lower than rates for other types of credit. The interest you save could offset the costs of establishing and maintaining the line. Moreover, some lenders waive some or all of the closing costs.

2.3 How will you repay your home equity plan?

Before entering into a plan, consider how you will pay back the money you borrow. Some plans set a minimum monthly payment that includes a portion of the principal (the amount you borrow) plus accrued interest. But, unlike with typical installment loan agreements, the portion of your payment that goes toward principal may not be enough to repay the principal by the end of the term. Other plans may allow payment of only the interest during the life of the plan, which means that you pay nothing toward the principal. If you borrow \$10,000, you will owe that amount when the payment plan ends.

Regardless of the minimum required payment on your home equity line, you may choose to pay more, and many lenders offer a choice of payment options. However, some lenders may require you to pay special fees or penalties if you choose to pay more, so check with your lender. Many consumers choose to pay down the principal regularly as they do with other loans. For example, if you use your line to buy a boat, you may want to pay it off as you would a typical boat loan.

Whatever your payment arrangements during the life of the plan—whether you pay some, a little, or none of the principal amount of the loan—when the plan ends, you may have to pay the entire balance owed, all at once. You must be prepared to make this “balloon payment” by refinancing it with the lender, by obtaining a loan from another lender, or by some other means. If you are unable to make the balloon payment, you could lose your home.

If your plan has a variable interest rate, your monthly payments may change. Assume, for example, that you borrow \$10,000 under a plan that calls for interest-only payments. At a 10 percent interest rate, your monthly payments would be \$83. If the rate rises over time to 15 percent, your monthly payments will increase to \$125. Similarly, if you are making payments that cover interest plus some portion of the principal, your monthly payments may increase, unless your agreement calls for keeping payments the same throughout the plan period.

If you sell your home, you will probably be required to pay off your home equity line in full immediately. If you are likely to sell your home in the near future, consider whether it makes sense to pay the up-front costs of setting up a line of credit. Also keep in mind that renting your home may be prohibited under the terms of your agreement.

2.4 Line of credit vs. traditional second mortgage loans

If you are thinking about a home equity line of credit, you might also want to consider a traditional second mortgage loan. This type of loan provides you with a fixed amount of money, repayable over a fixed period. In most cases, the payment schedule calls for equal payments that pay off the entire loan within the loan period. You might consider a second mortgage instead of a home equity line if, for example, you need a set amount for a specific purpose, such as an addition to your home.

In deciding which type of loan best suits your needs, consider the costs under the two alternatives. Look at both the APR and other charges. Do not, however, simply compare the APRs, because the APRs on the two types of loans are figured differently:

- The APR for a traditional second mortgage loan takes into account the interest rate charged plus points and other finance charges.
- The APR for a home equity line of credit is based on the periodic interest rate alone. It does not include points or other charges.

2.4.1 Disclosures from lenders

The federal Truth in Lending Act requires lenders to disclose the important terms and costs of their home equity plans, including the APR, miscellaneous charges, the payment terms, and information about any variable-rate feature. And in general, neither the lender nor anyone else may charge a fee until after you have received this information. You usually get these disclosures when you receive an application form, and you will get additional disclosures before the plan is opened. If any term (other than a variable-rate feature) changes before the plan is opened, the lender must return all fees if you decide not to enter into the plan because of the change. Lenders are also required to provide you with a list of homeownership counseling organizations in your area.

When you open a home equity line, the transaction puts your home at risk. If the home involved is your principal dwelling, the Truth in Lending Act gives you three days from the day the account was opened to cancel the credit line. This right allows you to change your mind for any reason. You simply inform the lender in writing within the three-day period. The lender must

then cancel its security interest in your home and return all fees— including any application and appraisal fees—paid to open the account.

The Home Ownership and Equity Protection Act of 1994 (HOEPA) addresses certain unfair practices and establishes requirements for certain loans with high rates and fees, including certain additional disclosures. HOEPA now covers some HELOCs. You can find out more information by contacting the CFPB at the website address and phone number listed in the Contact information appendix, below.

2.5 What if the lender freezes or reduces your line of credit?

Plans generally permit lenders to freeze or reduce a credit line if the value of the home “declines significantly” or when the lender “reasonably believes” that you will be unable to make your payments due to a “material change” in your financial circumstances. If this happens, you may want to:

- **Talk with your lender.** Find out what caused the lender to freeze or reduce your credit line and what, if anything, you can do to restore it. You may be able to provide additional information to restore your line of credit, such as documentation showing that your house has retained its value or that there has not been a “material change” in your financial circumstances. You may want to get copies of your credit reports (go to the CFPB’s website at consumerfinance.gov/askcfpb/5/can-i-review-my-credit-report.html for information about how to get free copies of your credit reports) to make sure all the information in them is correct. If your lender suggests getting a new appraisal, be sure you discuss appraisal firms in advance so that you know they will accept the new appraisal as valid.
- **Shop around for another line of credit.** If your lender does not want to restore your line of credit, shop around to see what other lenders have to offer. If another lender is willing to offer you a line of credit, you may be able to pay off your original line of credit and take out another one. Keep in mind, however, that you may need to pay some of the same application fees you paid for your original line of credit.

APPENDIX A:

Defined terms

This glossary provides general definitions for terms commonly used in the real estate market. They may have different legal meanings depending on the context.

DEFINED TERM	
ANNUAL MEMBERSHIP OR MAINTENANCE FEE	An annual charge for access to a financial product such as a line of credit, credit card, or account. The fee is charged regardless of whether or not the product is used.
ANNUAL PERCENTAGE RATE (APR)	The cost of credit, expressed as a yearly rate. For closed-end credit, such as car loans or mortgages, the APR includes the interest rate, points, broker fees, and other credit charges that the borrower is required to pay. An APR, or an equivalent rate, is not used in leasing agreements.
APPLICATION FEE	Fees charged when you apply for a loan or other credit. These fees may include charges for property appraisal and a credit report.
BALLOON PAYMENT	A large extra payment that may be charged at the end of a mortgage loan or lease.
CAP (INTEREST RATE)	A limit on the amount that your interest rate can increase. Two types of interest-rate caps exist. <i>Periodic adjustment caps</i> limit the interest-rate increase from one adjustment period to the next. <i>Lifetime caps</i> limit the interest-rate increase over the life of the loan. By law, all adjustable-rate mortgages have an overall cap.

**CLOSING OR
SETTLEMENT COSTS**

Fees paid when you close (or settle) on a loan. These fees may include application fees; title examination, abstract of title, title insurance, and property survey fees; fees for preparing deeds, mortgages, and settlement documents; attorneys' fees; recording fees; estimated costs of taxes and insurance; and notary, appraisal, and credit report fees. Under the Real Estate Settlement Procedures Act, the borrower receives a good faith estimate of closing costs within three days of application. The good faith estimate lists each expected cost as an amount or a range.

CREDIT LIMIT

The maximum amount that may be borrowed on a credit card or under a home equity line of credit plan.

EQUITY

The difference between the fair market value of the home and the outstanding balance on your mortgage plus any outstanding home equity loans.

INDEX

The economic indicator used to calculate interest-rate adjustments for adjustable-rate mortgages or other adjustable-rate loans. The index rate can increase or decrease at any time. See also Selected index rates for ARMs over an 11-year period (consumerfinance.gov/f/201204_CFPB_ARMs-brochure.pdf) for examples of common indexes that have changed in the past.

INTEREST RATE

The percentage rate used to determine the cost of borrowing money, stated usually as a percentage of the principal loan amount and as an annual rate.

MARGIN

The number of percentage points the lender adds to the index rate to calculate the adjustable-rate-mortgage interest rate at each adjustment.

MINIMUM PAYMENT

The lowest amount that you must pay (usually monthly) to keep your account in good standing. Under some plans, the minimum payment may cover interest only; under others, it may include both principal and interest.

**POINTS (ALSO
CALLED DISCOUNT
POINTS)**

One point is equal to 1 percent of the principal amount of a mortgage loan. For example, if a mortgage is \$200,000, one point equals \$2,000. Lenders frequently charge points in both fixed-rate and adjustable-rate mortgages to cover loan origination costs or to provide additional compensation to the lender or broker. These points usually are paid at closing and may be paid by the borrower or the home seller, or may be split between them. In some cases, the money needed to pay points can be borrowed (incorporated in the loan amount), but doing so will increase the loan amount and the total costs. Discount points (also called discount fees) are points that you voluntarily choose to pay in return for a lower interest rate.

SECURITY INTEREST

If stated in your credit agreement, a creditor, lessor, or assignee's legal right to your property (such as your home, stocks, or bonds) that secures payment of your obligation under the credit agreement. The property that secures payment of your obligation is referred to as "collateral."

TRANSACTION FEE

Fee charged each time a withdrawal or other specified transaction is made on a line of credit, such as a balance transfer fee or a cash advance fee.

VARIABLE RATE

An interest rate that changes periodically in relation to an index, such as the prime rate. Payments may increase or decrease accordingly.

APPENDIX B:

More information

For more information about mortgages, including home equity lines of credit, visit consumerfinance.gov/mortgage. For answers to questions about mortgages and other financial topics, visit consumerfinance.gov/askcfpb. You may also visit the CFPB's website at consumerfinance.gov/owning-a-home to access interactive tools and resources for mortgage shoppers, which are expected to be available beginning in 2014.

Housing counselors can be very helpful, especially for first-time home buyers or if you're having trouble paying your mortgage. The U.S. Department of Housing and Urban Development (HUD) supports housing counseling agencies throughout the country that can provide free or low-cost advice. You can search for HUD-approved housing counseling agencies in your area on the CFPB's web site at consumerfinance.gov/find-a-housing-counselor or by calling HUD's interactive toll-free number at 800-569-4287.

The company that collects your mortgage payments is your loan servicer. This may not be the same company as your lender. If you have concerns about how your loan is being serviced or another aspect of your mortgage, you may wish to submit a complaint to the CFPB at consumerfinance.gov/complaint or by calling (855) 411-CFPB (2372).

When you submit a complaint to the CFPB, the CFPB will forward your complaint to the company and work to get a response. Companies have 15 days to respond to you and the CFPB. You can review the company's response and give feedback to the CFPB.

APPENDIX C:

Contact information

For additional information or to submit a complaint, you can contact the CFPB or one of the other federal agencies listed below, depending on the type of institution. If you are not sure which agency to contact, you can submit a complaint to the CFPB and if the CFPB determines that another agency would be better able to assist you, the CFPB will refer your complaint to that agency and let you know.
